

AGM TECHNOLOGY INC.

British Virgin Islands

ANTI-MONEY LAUNDERING COMPLIANCE MANUAL

Version 2.0 – March 2026

Supersedes: AML Compliance Manual, October 2024

Document Type	Anti-Money Laundering Compliance Manual
Entity	AGM Technology Inc. (BVI) Investment Business Licensee
Version	2.0 – Revised March 2026
Supersedes	AML Compliance Manual, October 30, 2024
Jurisdiction	British Virgin Islands
Regulator	BVI Financial Services Commission (FSC)
Approved By	Board of Directors
Review Frequency	Annual / Upon material regulatory change
Companion Documents	AGM Financial Sanctions Compliance Policy (v1.0, March 2026); AGM AML/CFT Risk-Based Approach Procedure (v1.0, March 2026)
Policy Owner	AML Compliance Officer (Cristian Ramírez Fernández)

Version 2.0 – Key Changes from October 2024 Version
• Integrated Risk-Based Approach (RBA) framework: four-dimension risk scoring model now embedded in Section 3A. • New Section 3B: Financial Sanctions Compliance (aligned with BVI Financial Sanctions Guidelines, Revised December 31, 2024). • Sanctions procedures updated to cover all six applicable sanctions lists (OFSI UK, FCDO UK, OFAC SDN, UN, FIA BVI, FSC BVI). • Sanctions reporting procedures updated to identify the VI Sanctions Unit (SU) as the BVI competent reporting authority. • Risk-differentiated monitoring and screening cadence introduced (HIGH / MEDIUM / LOW tiers). • Enhanced SAR filing procedure including external reporting to FIA (Section 10C). • Institutional Risk Assessment requirement added (Section 3C). • Annex B (CIC) updated with Risk Assessment Summary Sheet and Sanctions Screening Checklist.

Annex C – Sanctions Screening Checklist	34

INTRODUCTION

To comply with Anti-Money Laundering policies, AGM Technology Inc. (“AGM”) has established this Anti-Money Laundering (AML) Compliance Manual (the “Manual”) to assist in the account opening procedures and ongoing monitoring of each client account, and to manage AGM’s compliance risk. Compliance risk is defined as the risk of legal and regulatory sanctions arising from failure to comply with Regulatory Obligations, as described below.

This Manual must be read in conjunction with two companion documents that form an integrated compliance framework:

- AGM Financial Sanctions Compliance Policy (Version 1.0, March 2026) – sets out AGM’s full obligations under the BVI financial sanctions regime, aligned with the BVI Financial Sanctions Guidelines (Revised December 31, 2024).
- AGM AML/CFT Risk-Based Approach (RBA) Procedure (Version 1.0, March 2026) – provides the detailed operational framework for risk assessment, customer due diligence, enhanced due diligence, and ongoing monitoring.

Business Model

AGM Technology Inc. (“AGM”) is licensed by the BVI Financial Services Commission under the Securities and Investment Business Act 2010 (SIBA) in the following categories: Category 1 (Dealing as Agent) and Category 3 (Managing Segregated Portfolios). AGM’s business is based on the referral and introduction of clients to a clearing firm/custodian (Interactive Brokers), so that clients may establish brokerage accounts in their own names. Clients may either engage in self-directed trading or have their accounts managed by AGM as segregated portfolios.

Self-Directed Accounts

Self-directed accounts involve the client placing their own orders. AGM acts as introducing broker and may assist with order placement where requested. To minimise operational risk, AGM places orders in the presence of two traders with mandatory order previews, and its policy is to close any erroneous trade immediately upon detection.

Segregated Portfolios

Segregated portfolios are managed by AGM under a discretionary mandate agreed with each client. AGM monitors the composition of each portfolio daily using a proprietary system to ensure compliance with each client's agreed investment strategy and asset allocation.

General Risk Mitigation

A key risk mitigation feature of AGM's business model is that AGM does not accept funds or assets directly from clients. All client funds are held in segregated accounts in the client's own name with the clearing firm. This substantially reduces AGM's money laundering risk exposure relative to institutions that hold client assets directly.

Organizational Structure

The Board of Directors is responsible for approving this Manual. The Chief Executive Officer (CEO) is responsible for its creation in conjunction with the Compliance Officer and COO, and for presenting it to the Board for approval. The AML Compliance Officer is responsible for executing and applying this Manual. The COO is responsible for following up on the policies established in this Manual and reporting any breaches to the Compliance Officer.

SECTION 1 – FIRM POLICY

It is the policy of AGM Technology Inc. ("AGM") to prohibit and actively prevent money laundering and any activity that facilitates money laundering or the funding of criminal or terrorist activities, and to comply with all anti-money laundering and counter-terrorism financing regulatory obligations applicable in the British Virgin Islands. AGM is committed to maintaining the highest standards of AML/CFT compliance, consistent with the requirements of the BVI Financial Services Commission and international best practice.

SECTION 2 – DEFINITION OF MONEY LAUNDERING

Money laundering is generally defined as engaging in acts designed to conceal or disguise the true origins of criminally derived proceeds so that the unlawful proceeds appear to have derived from legitimate origins or constitute legitimate assets. The three recognised stages of money laundering are: (i) Placement – the introduction of criminal proceeds into the financial system; (ii) Layering – the disguising of the trail to foil pursuit; and (iii) Integration – the re-introduction of the proceeds into the economy in an apparently legitimate form.

SECTION 3 – COMPLIANCE OBLIGATIONS AND REGULATORY FRAMEWORK

AGM's Regulatory Obligations arise from the following sources:

- Applicable BVI legislation, including: the Financial Services Commission Act, 2001 ("FSC Act"); the Securities and Investment Business Act, 2010 ("SIBA"); the Regulatory Code, 2009 ("Code"); the Proceeds of Criminal Conduct Act, 1997 ("PCCA"); the Anti-Money Laundering and Terrorist Financing Code of Practice ("AMLCFTC"); the Anti-Money Laundering Regulations ("AMLR"); the Counter-Terrorism Act, 2021 ("CTA"); and the Proliferation Financing (Prohibition) Act, 2021 ("PFPA").
- UK financial sanctions legislation extended to the BVI via Orders in Council (OIC) under the Sanctions and Anti-Money Laundering Act 2018 ("SAML").
- BVI Financial Sanctions Guidelines (Revised December 31, 2024) ("VIFSG"), as issued by the BVI Governor's Office and the Sanctions Unit.

- OFAC regulations applicable on an extra-territorial basis by virtue of AGM's USD transactions and clearing relationship with US-based Interactive Brokers.
- UN Security Council Resolutions (UNSCRs) 1267, 1373, 1718 and 2231, as implemented through BVI domestic legislation and OICs.
- Directives or practice directions issued by the Financial Services Commission ("Commission").
- Conditions established under AGM's investment business license held under SIBA.

Instrument	Relevance to AGM
AMLCFTC (BVI Code of Practice)	Mandates risk-based approach to CDD, record-keeping, and monitoring of ML/TF risks
BVI Financial Sanctions Guidelines (Dec 2024)	Requires sanctions risk assessment, multi-list screening, SU reporting obligations, and breach reporting protocols
PCCA 1997	Criminalizes money laundering; establishes SAR reporting obligations
AMLR (Anti-ML Regulations)	Describes detailed CDD, EDD and ongoing monitoring requirements
FSC Act 2001 / SIBA 2010	Compliance obligations of licensed investment business; FSC supervision framework
Regulatory Code 2009	Operational compliance requirements including compliance manual maintenance (s.46)
Counter-Terrorism Act 2021 / PFPA 2021	Implements UNSCR asset freeze obligations; requires reporting to FIA for TF and proliferation financing
SAMLA 2018 (via OIC)	UK primary sanctions legislation extended to BVI; directly applicable to AGM
OFAC (US Treasury)	Extra-territorial effect on AGM due to USD transactions and US clearing firm relationship

SECTION 3A – RISK-BASED APPROACH (RBA) FRAMEWORK

AGM's compliance programme is built on a Risk-Based Approach (RBA) in accordance with Section 12 of the AMLTF Code of Practice. The RBA enables AGM to allocate compliance resources proportionately to the level of identified risk, ensuring that higher-risk relationships receive enhanced scrutiny while lower-risk relationships are subject to standard measures. The full operational detail of the RBA framework is set out in the AGM AML/CFT Risk-Based Approach Procedure (Version 1.0, March 2026), which should be read alongside this section.

3A.1 – Four Risk Dimensions

AGM assesses each client relationship across four primary risk dimensions:

Dimension	Description	Key Sub-Factors
1. Customer Risk	Risk posed by the identity, nature and characteristics of the client	Nationality, residency, PEP/RCA status, legal structure, beneficial ownership, source of wealth
2. Geographic Risk	Risk arising from the jurisdictions linked to the client or their transactions	Country of residence, FATF status, OFAC embargoes, UK/UN/EU/BVI sanctions lists, FSC-designated high-risk jurisdictions
3. Product/Service Risk	Risk inherent in the financial product or service used by the client	Account type (self-directed vs. discretionary), transaction volumes, use of margin, asset class exposure
4. Channel/Delivery Risk	Risk arising from how the business relationship was established or is conducted	Face-to-face vs. non-face-to-face onboarding, third-party reliance, digital vs. telephone channels

3A.2 – Risk Scoring Scale

Each dimension is scored Low (1), Medium (2) or High (3). The overall client risk rating is derived by aggregating scores across all four dimensions:

Overall Rating	Score Range	Due Diligence Level	Review Frequency
LOW	<= 3.5	Standard CDD (SDD eligible if all criteria met)	Annually or at trigger event
MEDIUM	3.5 > and <= 5.0	Standard CDD with heightened monitoring	Quarterly or at trigger event
HIGH	> 5.0	Enhanced Due Diligence (EDD) mandatory	Monthly or at trigger event

3A.3 – Customer Risk Indicators

Risk Factor	Indicator	Required Action
PEP / RCA Status	Current or former senior foreign political figure, immediate family or close associate	EDD mandatory; senior management approval required; annual review
Beneficial Ownership	Complex, multi-layered or obscured corporate structure	Full UBO mapping required; legal structure chart; source of funds verification
Institutional Client	Regulated financial institution in a FATF-member jurisdiction	Standard CDD; reliance on that institution's CIP possible
Source of Wealth	Unclear, implausible or inconsistent with client profile	Documentary evidence of SOW required; senior officer sign-off
Refusal to Provide Info	Client declines required identification or documentation	Do not open account; escalate immediately to AML Officer
Self-Directed Individual	Retail individual, documented employment/business income, no adverse flags	Standard CIF/CIC; annual file review
Shell / Holding Entity	Non-operating entity; ultimate owner not immediately clear	CDD on legal entity + all UBOs >25%; ongoing monitoring

3A.4 – Geographic Risk Indicators

Risk Factor	Indicator	Required Action
FATF Blacklist	Country subject to FATF call for action (e.g. Iran, DPRK)	Decline relationship; report to AML Officer; OFAC/SDN check mandatory
FATF Grey List	Country under FATF increased monitoring	EDD; source of funds verification; senior management approval
OFAC / UN / UK / EU / BVI Sanctions	Jurisdiction or counterparty subject to financial sanctions	Immediate freeze/rejection; notify clearing firm; file CRF with SU
Non-Cooperative Territory	Jurisdiction identified as non-cooperative by BVI FSC	EDD; heightened transaction monitoring; senior sign-off required
High-Risk but Not Sanctioned	Known high ML/TF risk jurisdiction (e.g. offshore secrecy haven)	Enhanced CDD; source of funds/wealth verification; closer monitoring
FATF Member, Low Risk	Well-regulated FATF-compliant jurisdiction, no adverse flags	Standard CDD; routine monitoring
BVI / US / UK / EU / Canada	AGM home jurisdictions or tier-1 financial centers	Standard CDD; OFAC screening still required

3A.5 – Product & Service Risk Indicators

Risk Factor	Indicator	Required Action
Private Banking Account	Minimum USD 1,000,000 aggregate deposit managed for a non-US individual	EDD; PEP check; senior management approval; dedicated due diligence program
Discretionary Portfolio	AGM manages investments under a discretionary mandate	Standard CDD + investment strategy documentation; quarterly portfolio review
Self-Directed Brokerage	Client places own orders; AGM acts as introducing broker only	Standard CDD; transaction monitoring via clearing firm rules engine
High Transaction Volume	Transactions over USD 1,000,000 (non-institutional) or unusual frequency	Senior management approval; enhanced monitoring; pattern analysis
Third-Party Transfers	Client requests third-party checks, Fed wire, or deposits	Verify legitimacy; document rationale; senior approval; SAR assessment
Unusual Securities	Trading in penny stocks, Regulation S stocks, bearer bonds without clear rationale	Further due diligence on transaction purpose; alert clearing firm if suspicious

3A.6 – Channel / Delivery Risk Indicators

Risk Factor	Indicator	Required Action
Non-Face-to-Face	Online or telephone onboarding; no in-person verification	Non-documentary verification methods; additional cross-checks required
Walk-in (Face-to-Face)	Client presents in person with original government ID	Verify original documents; standard CIF; written notice provided
Third-Party CIP Reliance	AGM relies on another regulated FI to perform CIP elements	Obtain contractual certification; confirm reliance is reasonable and documented
Correspondent	Account held by a foreign bank	AGM policy: correspondent accounts require shell bank certifications
Undisclosed Principal	Client appears to act as agent but declines to identify principal	Decline account opening; escalate to AML Officer; SAR consideration
Telephone Clients	Client onboarded via telephone; notice read verbatim per AGM policy	Log call; document verbal notice delivery; follow up with written confirmation

3A.7 – Customer Due Diligence (CDD), Enhanced Due Diligence (EDD) & Simplified Due Diligence (SDD)

Standard CDD is the baseline obligation applied to every new client relationship. Enhanced Due Diligence (EDD) is mandatory for all HIGH-rated clients and for any client presenting a mandatory EDD trigger. Simplified Due Diligence (SDD) may only be applied where the client is rated LOW, is a regulated financial institution in a FATF-member jurisdiction, and no EDD trigger is present.

Mandatory EDD Triggers

Client is identified as a PEP, Relative or Close Associate (RCA).
 Client's country of residence or beneficial owner's nationality is on FATF Blacklist or Grey List.
 Client's jurisdiction is subject to OFAC, UN, UK, EU or BVI financial sanctions.
 Account qualifies as a Private Banking Account (minimum aggregate USD 1,000,000, non-US individual).
 Any single transaction exceeds USD 1,000,000 (non-institutional accounts).

Third-party wire transfers, third-party checks, or third-party deposits are requested.
 Client or transaction presents multiple red flags as listed in Section 10B.
 Client structure involves unclear or complex beneficial ownership.

EDD measures shall include all Standard CDD steps plus: probing the client's employment history; obtaining and documenting the source of funds and source of wealth with documentary evidence (tax returns, audited accounts, employer certification); for private banking accounts: a dedicated due diligence programme covering all nominal and beneficial holders; senior management sign-off for all high-value and suspicious transactions; and increased monitoring frequency (at least every 6–12 months or upon any trigger event).

SECTION 3B – FINANCIAL SANCTIONS COMPLIANCE POLICY

Important – Companion Policy

The full Financial Sanctions Compliance Policy (Version 1.0, March 2026) is a separate standalone document that must be read alongside this Manual. This Section 3B provides a summary of AGM's obligations and procedures for reference within the Manual. In all cases of conflict or ambiguity, the Financial Sanctions Compliance Policy prevails on sanctions matters.

3B.1 – What Are Financial Sanctions?

Financial sanctions are restrictive measures imposed by the United Nations Security Council (UNSC) and/or the United Kingdom Government to achieve specific foreign policy or national security objectives. In the BVI context, sanctions implemented through the UK (via SAMLA and Orders in Council) are directly applicable. The most common forms include: targeted asset freezes; restrictions on financial markets and services; and directions to cease business with designated persons, sectors, or countries.

3B.2 – Applicable Legislation

Legislation	Application to AGM
Sanctions & Anti-Money Laundering Act 2018 (SAMLA)	UK primary legislation extended to BVI via OIC; confers powers to designate persons and impose sanctions measures.
Counter-Terrorism Act, 2021 (CTA)	BVI domestic legislation implementing UNSCR 1267 and 1373; imposes asset freeze obligations and reporting duties.
Proliferation Financing (Prohibition) Act, 2021 (PFPA)	Prohibits dealings with assets of designated persons related to proliferation financing; requires reporting to FIA.
AMLR & AMLTFCOP	Require risk-based AML/CFT/CPF controls including sanctions screening as part of CDD procedures.
OFAC / US Sanctions	Extra-territorial effect applies to AGM due to USD transactions and US clearing firm relationships.
UN Security Council Resolutions (UNSCRs)	UNSCRs 1267, 1373, 1718, 2231 implemented in BVI through CTA, PFPA and OICs.

3B.3 – Competent Authorities

Authority	Role / Contact
VI Sanctions Unit (SU)	Receives Compliance Reporting Forms (CRF) Email: sanctions@gov.vg Tel: 1-284-468-2960

Financial Investigation Agency (FIA)	Receives SARs/STRs Portal: www.fiabvi.vg FIA can freeze assets for 72 hours or 5 days
Financial Services Commission (FSC)	AGM's primary regulator; monitors AML/CFT/CPF compliance www.bvifsc.vg
Attorney General's Chambers (AGC)	Coordinates sanctions orders, drafts legislation, and issues licences on behalf of the Governor
OFAC (US Treasury)	Relevant to AGM due to USD transaction flows https://home.treasury.gov/policy-issues/financial-sanctions/contact-ofac
OFSI (UK HM Treasury)	Consolidated List queries; UK sanctions general guidance www.gov.uk/ofsi

3B.4 – Sanctions Lists to be Screened

AGM must screen all clients, beneficial owners, counterparties and related parties against all of the following sanctions lists:

List	Administering Authority	Screening Frequency
OFSI UK Consolidated List	UK HM Treasury (OFSI)	Real-time at account opening; upon each list update
FCDO UK Sanctions List	UK Foreign Commonwealth & Development Office	Real-time at account opening; upon each list update
OFAC SDN & Blocked Persons List	U.S. Department of the Treasury (OFAC)	Real-time at account opening; periodic ongoing
UN Security Council Consolidated List	UN Security Council	At account opening; upon list update notification
FIA BVI Sanctions List	Financial Investigation Agency (BVI)	Regular basis; minimum weekly check
FSC BVI Sanctions List	BVI Financial Services Commission	Regular basis; minimum weekly check
BVI Official Gazette	BVI Governor's Office	Upon publication of new Orders in Council

CRITICAL – No Grace Period

Sanctions measures come into force in the BVI without delay — as soon as they come into force in the UK. There is no grace period. The AML Compliance Officer must act immediately upon becoming aware of any new designation or list update.

3B.5 – Screening Frequency (Risk-Tiered)

Sanctions screening is not a one-time activity. Screening must occur:

- Immediately – before opening any new account or establishing any business relationship.
- Upon any list update – immediately upon receipt of any notification of a new designation or list update from OFSI, FCDO, FIA, FSC, or SU.
- Monthly – as part of the monthly wire activity review cycle.
- Quarterly – as part of the quarterly document review cycle.
- Annually – full rescreening of all active client relationships as part of the annual file review.
- Trigger-based – upon any material change in client circumstances, ownership structure, or transaction profile.

Screening frequency is differentiated by risk tier as follows:

Risk Tier	Screening Frequency	Additional Requirements
-----------	---------------------	-------------------------

HIGH	Monthly (at minimum) + immediate upon any list update or trigger event	Enhanced monitoring; senior management sign-off for transactions; EDD documentation on file
MEDIUM	Quarterly (at minimum) + upon any list update	Standard CDD with heightened monitoring; documentation of screening results
LOW	Annually (at minimum) + upon any list update	Standard CDD; screening results documented in CIC

3B.6 – Beneficial Owner and Corporate Screening

For all corporate clients, AGM must screen against all sanctions lists not just the entity itself but also:

- All beneficial owners with 10% or greater ownership interest.
- All directors and authorized signatories (President and Secretary at minimum).
- Any person with control over the account, including via power of attorney.
- Any entity where a designated person holds more than 50% of shares or voting rights.
- Any entity where a designated person can appoint or remove a majority of the board of directors.

The connection between each individual screened and their role within the entity must be explicitly documented in the client file and confirmed in the Sanctions Screening Checklist (Annex C).

3B.7 – Sanctions Match Response Protocol

Where a sanctions screening check generates a potential match, the AML Compliance Officer shall:

1. STOP – Immediately halt any pending transaction; do not open or continue the account pending investigation.
2. ASSESS – Determine whether the match is a true positive (confirmed sanctions hit) or a false positive (name similarity only). Apply enhanced due diligence including checking aliases, dates of birth, nationality, and passport numbers against the Consolidated List entry. Document all steps taken.
3. TRUE POSITIVE – If confirmed: immediately notify the AML Compliance Officer and CEO; immediately notify AGM's clearing firm to freeze/block the client's assets; submit a Compliance Reporting Form (CRF) to the SU at sanctions@gov.vg; file a SAR/STR with the FIA within five (5) working days; do not tip off the client; preserve all records.
4. FALSE POSITIVE – If confirmed false positive: document the false positive assessment with supporting rationale; record outcome in the client file and sanctions screening log; proceed with account opening/transaction only after documented clearance.

3B.8 – Sanctions Reporting to the VI Sanctions Unit (SU)

AGM must report to the VI Sanctions Unit as soon as practicable if it knows or has reasonable cause to suspect that: a person is a designated person; a person has committed an offence under financial sanctions legislation; or AGM is in possession or control of funds or economic resources owned, held, or controlled by a designated person.

Reports must be submitted via Compliance Reporting Form (CRF) by email to: sanctions@gov.vg. The CRF must include: the Group ID reference number of the designated person from the Consolidated List; the nature, amount and quantity of funds or economic resources held; the information on which the knowledge or suspicion is based; and any information enabling identification of the person.

3B.9 – Sanctions Training

The AML Compliance Officer shall conduct dedicated annual sanctions training for all employees covering: applicable sanctions laws and regulations; how to screen for and identify designated persons; how to handle a sanctions match; and how and to whom to report. Initial sanctions compliance training must be completed by all new employees as part of their onboarding. Training records including completion dates and assessment results must be maintained for all employees.

SECTION 3C – INSTITUTIONAL RISK ASSESSMENT (IRA)

In accordance with Section 12(1)(a) of the AMLTF Code of Practice, AGM is required to carry out a business-level Institutional Risk Assessment (IRA) of its overall ML/TF/sanctions risk exposure. The IRA is distinct from individual customer risk assessments and addresses AGM's overall risk profile as a business.

IRA Scope and Components

The IRA must assess and document AGM's risk exposure across the following dimensions:

IRA Component	Description / Key Questions
Business Model Risk	What are the inherent ML/TF risks arising from AGM's introducing broker and segregated portfolio management model? Does the no-direct-asset-custody structure mitigate risk?
Product and Service Risk	What are the ML/TF risks arising from each product category (self-directed accounts, discretionary portfolios)? How does margin use affect risk?
Client Base Risk	What is the aggregate ML/TF risk profile of AGM's client base? What proportion of clients are PEPs, high-risk nationals, or complex entities?
Geographic Risk	What are the jurisdictions from which AGM's clients originate? Are any clients from sanctioned or FATF grey/blacklisted jurisdictions?
Channel Risk	What delivery channels does AGM use? What proportion of clients are onboarded non-face-to-face?
Third-Party / Counterparty Risk	What ML/TF risk is introduced by AGM's relationship with Interactive Brokers and any other counterparties?
Sanctions Risk	What is AGM's overall sanctions risk exposure given its client base, jurisdictions, and transaction volumes?

The IRA must be documented in a standalone report approved by the Board of Directors, reviewed at least annually, and updated whenever there is a material change in AGM's business model, client base, products/services, or the applicable regulatory environment. The AML Compliance Officer is responsible for preparing the IRA and presenting it to the Board for approval.

SECTION 4 – AML COMPLIANCE OFFICER DUTIES

The AML Compliance Officer of AGM has the responsibility to ensure that AGM complies with all applicable AML/CFT obligations, including:

- Establishing and maintaining compliance systems and controls as required by section 34(1) of the FSC Act and section 41 of the Code.
- Identifying, measuring, and assessing the compliance risks associated with AGM's business, including risks from new products, business types, or customer relationships.
- Reviewing Regulatory Obligations and compliance systems, identifying deficiencies, and making regular assessment reports to the Board and senior management with recommendations for updates.
- Maintaining this Compliance Manual as required by section 34(2) of the FSC Act and section 46 of the Code; keeping it under regular review.
- Maintaining the Institutional Risk Assessment (Section 3C) and updating it annually.
- Maintaining a register of compliance breaches recording the date, nature and extent of each breach and whether it has been reported to the Commission.

- Ensuring that all AGM staff are aware of the need for, and objectives of, compliance and are familiar with AGM's Compliance Manual and applicable regulatory requirements.
- Ensuring that AGM complies with its reporting obligations to the Commission, including timely, accurate, and complete returns.
- Establishing and maintaining procedures for monitoring and handling complaints.
- Reporting immediately to the Commission any serious compliance breach.
- Preparing and submitting to the Commission an annual compliance report in the approved format.
- Preparing and submitting to the Board of Directors an annual compliance report.
- Overseeing the sanctions compliance programme and serving as point of contact for all regulatory communications on sanctions matters.
- Maintaining a Sanctions Register documenting all screening results, match assessments, CRF submissions, SAR filings, and actions taken.
- Conducting and documenting all ongoing monitoring activities (monthly, quarterly, annual) as described in Section 10A.

SECTION 5 – PROVIDING AML INFORMATION

AGM has designated the AML Compliance Officer as the point of contact for all AML/CFT information requests. The AML Compliance Officer will share information about those suspected of money laundering and terrorist financing with other financial institutions, where permitted by law, for the purposes of identifying and reporting activities that may involve money laundering or terrorist acts and to determine whether to establish or maintain an account or engage in a transaction. Strict procedures will be employed to ensure that only relevant information is shared and to protect the security and confidentiality of this information.

AGM will also share information about suspicious transactions with its clearing firm (Interactive Brokers) to the extent necessary to comply with AML laws and to enable the clearing firm to fulfil its monitoring obligations under the Clearing Agreement.

SECTION 6 – SANCTIONS SCREENING (OPERATIONAL PROCEDURES)

Before opening an account, before executing any transaction where a new counterparty or beneficiary is involved, and on an ongoing basis in accordance with Section 3B.5, AGM will screen clients, beneficial owners, counterparties and related parties against all sanctions lists identified in Section 3B.4.

If AGM determines that a client, or a person or entity on whose behalf the client is transacting, appears on any applicable sanctions list or is located in an embargoed country or region, AGM will: (i) immediately halt the transaction; (ii) follow the Sanctions Match Response Protocol in Section 3B.7; (iii) notify the clearing firm to freeze/block assets; (iv) submit a CRF to the VI Sanctions Unit; and (v) file a SAR/STR with the FIA within five working days. AGM will not file a blocked asset or rejected transaction form with OFAC for US-nexus transactions without also complying with the BVI reporting obligations described above.

All sanctions screening activities must be documented using the Sanctions Screening Checklist (Annex C to this Manual). A completed, signed checklist must be maintained in every client file.

As the OFSI and OFAC lists are updated frequently, the AML Compliance Officer must subscribe to automated update alerts (see Section 3B.4) and consult the relevant websites on at least a weekly basis. AGM will consult the BVI Official Gazette for publication of new Orders in Council and amendments.

SECTION 7 – CUSTOMER IDENTIFICATION AND VERIFICATION PROGRAM (CIP)

AGM has incorporated the Customer Identification Form (CIF) and Customer Identification Checklist (CIC), appended as Annex A and Annex B respectively, as core components of its AML compliance programme. The CIC now includes a Risk Assessment Summary Sheet that maps each piece of client information to the corresponding risk factor score, providing a clear and auditable derivation of the overall risk rating.

7.1 – Required Customer Information

Prior to opening an account, AGM will collect the following minimum information for any person, entity, or organization opening a new account:

- Full legal name of the account owner(s).
- Physical address (legal residential or business street address).
- Government-issued identification number (copy of unexpired government-issued photo ID evidencing nationality and residence).
- Date of birth (individuals) or date of incorporation (entities).
- Other information as required on AGM's New Account Application and CIF.

For foreign businesses or enterprises without a taxpayer identification number, AGM will request alternative government-issued documentation certifying the existence of the business or enterprise. If a customer has applied for but not yet received a taxpayer identification or social security number, AGM will accept a copy of the application for a period not exceeding 30 days, after which the account will be closed if the number has not been provided.

7.2 – Document Requirements – Individual Clients

Category	Required Documents	Specifications
Proof of Identity (POI)	Passport; OR National ID (country of residency or citizenship); OR Driver's Licence	Must be valid, signed, include photograph, full name, date of birth and expiration date
Proof of Address (POA)	Utility Bill (electric, water, fixed telephone, gas, cable TV, or internet)	Must state complete name and physical address; issued within 6 months; no mobile phone bills
Source of Wealth (SOW)	Payroll document or CPA salary certification; Brokerage statement; Property sale contract; Legal inheritance document; Dividends resolution	Applicable document depending on client's declared source of wealth

7.3 – Document Requirements – Corporate Clients

Category	Required Documents	Specifications
Proof of Existence (POE)	Articles of Incorporation; Corporate Charter; Government-issued business licence; Certificate of Good Standing (<6 months); Offering Document (if Mutual Fund)	Two documents required; must show entity name, registration number, and board composition
Proof of Address (POA)	Utility bill for the entity	Same specifications as individual; issued within 6 months
Director / Signatory POI	Passport, National ID or Driver's Licence for President, Secretary and all signatories	Same specifications as individual POI
Director / Signatory POA	Utility bill for each director and signator	Same specifications as individual POA
Ownership Documents	Shareholders Register; Share Certificates	Any shareholder with >10% ownership must provide POI and POA
Beneficial Owners	POI and POA for all UBOs with >10% ownership interest	Connection of each UBO to the entity must be documented in the client file
Source of Wealth (SOW)	Financial statements; brokerage statements; property sale contracts; dividend resolutions; bank statements	Applicable document depending on entity's declared source of funds

Financial Statement	Bank statement; brokerage statement; mortgage or loan statement	For assessment of entity's financial profile
Margin Trading Auth.	Corporate bylaws; corporate resolution	Required only if margin trading is requested

7.4 – Verification and Non-Documentary Methods

AGM will verify customer identity through documentary evidence, non-documentary means, or both. Non-documentary methods include: contacting the customer; independently verifying the customer's identity through comparison of information provided with information from a consumer reporting agency or public database; checking references with other financial institutions; or obtaining a financial statement. Non-documentary methods are used where face-to-face contact is not possible or where other circumstances increase the risk that identity cannot be verified through documentary means alone.

7.5 – High-Risk Entity Verification

AGM recognises heightened risk in accounts opened in the name of corporations, partnerships, or trusts created in or conducting substantial business in jurisdictions designated as high money laundering risk. Additional measures will be applied for such entities, including obtaining information about all individuals with authority or control over the account, as documented in the EDD procedure (Section 3A.7).

7.6 – Customers Who Refuse to Provide Information

If a potential or existing customer refuses to provide the required information, or appears to have intentionally provided misleading information, AGM will not open a new account and will consider closing any existing account(s) for that customer after assessing the risks involved. The AML Compliance Officer will be notified immediately.

7.7 – Notice to Customers

Prior to opening an account or granting trading authority over an existing account, AGM will provide notice to customers that the firm is requesting information to verify their identities as required under BVI AML/CFT Obligations and the US PATRIOT Act. Walk-in customers will receive written notice; telephone customers will have the notice read verbatim (and confirmed in writing); online customers will receive a copy of the written notification.

SECTION 8 – FOREIGN CORRESPONDENT ACCOUNTS AND SHELL BANKS

It is AGM's policy not to establish, maintain, administer, or manage correspondent accounts for unregulated foreign shell banks. Foreign shell banks are foreign banks without a physical presence in any country. AGM will attempt to detect correspondent accounts for unregulated foreign shell banks through its CIP procedures. Upon finding or suspecting such accounts, the AML Compliance Officer will be notified and the account will be terminated. Any foreign bank account holders must complete model certifications confirming they are not shell banks, with re-certification at least every three years. AGM does not maintain, nor does it have any intention to maintain, omnibus accounts.

SECTION 9 – PRIVATE BANKING ACCOUNTS / FOREIGN OFFICIALS

A "private banking" account is defined as an account (or combination of accounts) requiring a minimum aggregate deposit of USD 1,000,000, established for one or more individuals, and assigned to or administered by an officer, employee or agent of a financial institution acting as a liaison. Any account requested or maintained by or on behalf of a "senior foreign political figure" (including family members and close associates) requires approval by AGM's senior management. Such accounts are subject to EDD as described in Section 3A.7 and require ongoing enhanced monitoring. If due diligence cannot be performed adequately, the AML Compliance Officer will determine whether to open, restrict, or close the account.

SECTION 10 – MONITORING ACCOUNTS FOR SUSPICIOUS ACTIVITY

AGM conducts ongoing monitoring of account activity manually and in coordination with its clearing firm's automated rules engine. The AML Compliance Officer is responsible for monitoring and documenting when and how monitoring is carried out and for reporting suspicious activities to the appropriate authorities.

SECTION 10A – TRANSACTION MONITORING FRAMEWORK

Mandatory Review Schedule

Frequency	Review Activity	Responsible Party & Escalation
MONTHLY	Review all incoming and outgoing wire deposits per account: frequency, amounts, and beneficiaries. Identify any unusual activity.	AML Compliance Officer reports unusual activity to CEO and COO. If client response is unsatisfactory, account is placed on hold or closed.
QUARTERLY	Verify every account has complete AML documentation (CIF, CIC, ID, corporate docs). Identify missing or incomplete items. Random file review by AML Officer.	Missing documents requested directly from client. If not provided within 30 days, AML Officer reports to CEO/COO. If not resolved within a further 15 days, account placed on hold.
ANNUALLY	Full review of each account's AML documentation. Identify expired or expiring documents. Sanctions rescreening of all active clients. Reassess client risk rating.	Expired/expiring documents requested from client. Same escalation as quarterly (30-day + 15-day timeline). Updated risk rating recorded and filed.
TRIGGER-BASED	Immediate review upon: material change in client circumstances; detection of red flag; media or adverse intelligence alert; regulatory list update; client request for unusual transaction type.	AML Compliance Officer determines appropriate action (update risk rating, request documentation, freeze account, file SAR). All trigger events documented.

Risk-Tiered Monitoring Cadence

Risk Tier	Monitoring Requirements
HIGH	Enhanced automated alerts + manual review at minimum monthly or upon any flag. Mandatory senior management approval and review for any flagged transaction. Flagged transactions must be reviewed within 5 business days of receipt.
MEDIUM	Automated alerts + manual review at minimum quarterly. Flagged transactions must be reviewed within 15 business days of receipt.
LOW	Automated alerts + manual review at minimum in the context of scheduled file reviews. Flagged transactions reviewed within the monthly review cycle.

The following specific account activities are subject to mandatory senior management approval and review in addition to standard monitoring:

- Any transaction exceeding USD 1,000,000 (non-institutional accounts).
- Any incoming Fed Fund wire.
- Any account holding only cash.
- Any account displaying an unusual or unexplained trading or transaction pattern.

SECTION 10B – RED FLAGS

The following constitute red flags and must trigger an immediate investigation by the AML Compliance Officer. Employees must report any red flag to the AML Compliance Officer immediately and must never confront the client or disclose that a review is taking place.

Transaction Red Flags

- Transactions structured just below USD 10,000 reporting thresholds to avoid documentation requirements.
- Unexplained sudden extensive wire activity in previously dormant or low-activity accounts.
- Large or frequent incoming wire transfers immediately withdrawn by check or debit card without clear business purpose.
- Funds deposited followed by immediate request to wire out to a third party or another firm.
- Long-term investment deposits quickly liquidated and transferred out of the account.
- Excessive journal entries between unrelated accounts without apparent business purpose.
- Frequent large deposits with immediate disbursement via checks.
- Client makes requests to process transactions to avoid normal documentation requirements.
- High volume of wire transfer requests to offshore banks when the client is not a resident of that country.
- Incoming and outgoing wires with no apparent business purpose to/from ML-risk or bank secrecy jurisdictions.
- Account with many outgoing wire transfers to unrelated third parties inconsistent with the customer's legitimate business purpose.

Client Behaviour Red Flags

- Client exhibits unusual concern about the firm's compliance with government reporting requirements or is reluctant to reveal information about business activities.
- Client provides non-verifiable references or refuses to provide financial information.
- Client repeatedly requests exceptions to policies and procedures.
- Client appears to act as an agent for an undisclosed principal and declines to identify them.
- Client has difficulty describing the nature of their business or lacks knowledge of their own industry.
- Client insists on dealing only in cash or attempts to make frequent/large cash deposits.
- Client engages in transactions involving penny stocks, Regulation S stocks, or bearer bonds without clear rationale.
- Client maintains multiple accounts under a single name, family members, or corporate entities without apparent reason.
- Client's account shows inflows of funds or assets well beyond their known income or resources.
- Client requests pre-arranged codes or passwords to facilitate cash or securities transfers.
- Client is identified as being from, or has accounts in, a FATF non-cooperative country or territory.
- Client exhibits a lack of concern regarding risks, commissions, or other transaction costs.
- Client has a questionable background or is the subject of news reports indicating possible criminal, civil, or regulatory violations.
- The information provided by the customer identifying a legitimate source for funds is false, misleading, or substantially incorrect.

SECTION 10C – SAR FILING PROCEDURE (INTERNAL & EXTERNAL)

Internal Reporting Procedure

When any employee or officer detects a red flag or suspects money laundering, terrorist financing, or a sanctions breach:

5. The employee immediately reports the concern to the AML Compliance Officer in writing. The employee must not confront the client, tip off the client, or discuss the suspicion with unauthorized parties.
6. The AML Compliance Officer logs the suspicion in the internal SAR register, recording: the specific date and time the transaction was flagged; the client's full name, account number, and contact information; a description of the transaction and the basis for the flag.
7. The AML Compliance Officer conducts an investigation, which may include: gathering additional information internally; contacting third-party sources; requesting clarification from the clearing firm; and/or engaging external counsel. HIGH-risk flags must be reviewed within 5 business days; MEDIUM-risk flags within 15 business days.
8. Upon completing the investigation, the AML Compliance Officer updates the SAR register with: the investigation findings and conclusions; the date the review was completed; and the final status (cleared / escalated / reported to FIA).

External Reporting Procedure – FIA

If the investigation reveals that the activity may constitute money laundering, terrorist financing, or a sanctions breach, the AML Compliance Officer will file a Suspicious Activity/Transaction Report (SAR/STR) with the Financial Investigation Agency (FIA) within five (5) working days from the date the suspicion first arose. The SAR/STR is submitted via the FIA portal at www.fiabvi.vg. For sanctions-related reports, the AML Compliance Officer will also submit a Compliance Reporting Form (CRF) to the VI Sanctions Unit at sanctions@gov.vg. All SAR filings must be recorded in the compliance breach register together with the date, nature, and extent of the suspicion and the outcome of any investigation.

Emergency Notification – Clearing Firm

AGM will immediately contact its clearing firm (Interactive Brokers) when: a legal or beneficial account holder is listed on or located in an OFAC-listed country or region; an account is held by an entity owned or controlled by a person on the OFAC list; a client attempts to use bribery, coercion, or similar means to transact; or AGM has reason to believe funds are being used to further terrorism or to evade law enforcement.

SECTION 11 – AML RECORD KEEPING

All records generated under this Manual are confidential and are handled exclusively by the AML Compliance Officer. The following records must be created, maintained, and retained:

Record Type	Content / Purpose	Retention Period
Customer Identification Form (CIF)	Client identity, contact details, account type, KYC documentation	5 years from account closure
Customer Identification Checklist (CIC) with Risk Assessment Summary Sheet	Verification steps completed; document categories confirmed; risk score derivation documented	5 years from account closure
Risk Rating Record	Client risk score; dimension-by-dimension assessment; rationale; reviewer name and date	5 years from last update
Sanctions Screening Log / Checklist (Annex C)	Screening results, match assessments (true/false positive), disposition, reviewer, date; all lists screened	5 years from screening date
Institutional Risk Assessment	Business-level ML/TF/sanctions risk assessment; annual review; Board approval record	5 years from last update
Transaction Monitoring Reports	Monthly/quarterly/annual review findings; unusual activity flags; investigative outcomes	5 years from report date

Internal SAR Register	All flagged transactions; investigation findings; outcome and final status; date of completion; reporting action taken	5 years from filing date
External SAR/STR Filings (FIA)	SAR/STR reference number; date filed; suspicion basis; outcome	5 years from filing date
Sanctions CRF Submissions (SU)	CRF reference; date submitted; designated person details; assets frozen; outcome	5 years from filing date
Compliance Breach Register	Date, nature, extent of each compliance breach; reporting action taken; resolution	5 years from date of entry
EDD Files	Employment history, source of wealth documents, senior management approvals, PEP/RCA investigations	5 years from account closure
Training Records	Training topics covered; completion dates; attendance records; assessment results (including sanctions training)	5 years from training date
Foreign Correspondent Account Records	Shell bank certifications; ownership records; US agent for service of process	5 years from certification renewal

All records must be maintained securely and made available upon request to the FSC, FIA, VI Sanctions Unit, or other competent authority with appropriate authority to request such records. Failure to produce records or providing false documentation is an offence.

SECTION 12 – CLEARING / INTRODUCING FIRM RELATIONSHIPS

AGM works closely with its clearing firm (Interactive Brokers) to detect money laundering. Information is exchanged on records, data, and exception reports as necessary to comply with AML laws. The clearing firm monitors customer activity on AGM's behalf and AGM provides the clearing firm with proper customer identification information as required. The specific responsibilities are outlined in the Clearing Agreement between AGM and its clearing firm. AGM understands that this agreement does not relieve either party from its independent obligation to comply with all AML laws and regulations.

SECTION 13 – TRAINING

AGM maintains an ongoing training programme for all relevant staff. At minimum, training must cover:

- How to identify ML/TF/sanctions red flags arising during the employee's duties.
- How to apply the risk scoring matrix and document risk ratings correctly.
- The procedural steps for Standard CDD, EDD, and SDD.
- Sanctions screening obligations: which lists, how to screen, and how to handle matches.
- Internal and external SAR reporting: when, how, and to whom to report; confidentiality obligations; tipping-off prohibition.
- Dedicated sanctions training covering applicable laws, how to identify designated persons, how to handle a match, and how to report to the SU and FIA.
- The employee's specific role in AGM's compliance programme.
- AGM's record retention policy.

Training is developed in-house, supplemented as appropriate by external providers (including FSC and FIA-approved providers). Delivery formats include in-person instruction, educational materials, explanatory memoranda, and digital resources. New employees must complete RBA and sanctions training before handling any client accounts. Employee AML performance is reviewed annually by the COO. Training records including completion dates and assessment results must be maintained.

SECTION 14 – MONITORING EMPLOYEE CONDUCT AND ACCOUNTS

Employee accounts are subject to the same AML procedures as client accounts, under the supervision of the AML Compliance Officer. The COO will review accounts belonging to the AML Compliance Officer or members of their immediate family. Employee AML performance will be reviewed annually as part of the firm's performance review process.

SECTION 15 – CONFIDENTIAL REPORTING OF AML NON-COMPLIANCE

Employees must report any violations of AGM's AML programme to the AML Compliance Officer, unless the violations implicate the AML Compliance Officer, in which case the employee shall report directly to the COO. Such reports will be treated as confidential and the employee will suffer no retaliation for making them in good faith. Confidential reports shall be kept separate from general personnel records.

SECTION 16 – ADDITIONAL AREAS OF RISK

AGM will periodically review all areas of its business to identify potential money laundering risks not covered by the procedures described above. Where additional risks are identified, additional procedures will be implemented. The AML Officer will periodically review accounts for unusual patterns of trading and/or activity that might suggest money laundering, and will update the Institutional Risk Assessment (Section 3C) to reflect any newly identified risk categories.

SECTION 17 – CONCLUSION

The BVI Government and private sector have both emphasised the need to combat, on an international and cooperative basis, money laundering and terrorist financing. BVI has embraced effective, measured anti-money laundering regulation reflecting the highest international standards. AGM will comply with and enforce all legislative and policy enhancements effected by the BVI legislative authority and the BVI Financial Services Commission. This Manual, together with the AGM Financial Sanctions Compliance Policy and the AGM AML/CFT Risk-Based Approach Procedure, constitutes AGM's integrated AML/CFT compliance framework as of March 2026.

ANNEX A – CUSTOMER IDENTIFICATION FORM (CIF)

The Customer Identification Form (CIF) is available via AGM's secure online portal. The CIF collects the following minimum information prior to account opening:

- Full legal name of the account owner(s).
- Physical address (legal residential or business street address).
- Date of birth (individuals) or date of incorporation (entities).
- Government-issued identification number.
- Taxpayer identification or social security number (where applicable).
- Account type requested (self-directed or discretionary portfolio management).
- Investment objectives, estimated annual income, and net worth (Portfolio Analyst inputs).
- Source of wealth declaration and supporting documentation category.
- PEP / RCA self-declaration.
- Third-party authorisation and beneficial ownership declarations (for entities).

ANNEX B – CUSTOMER IDENTIFICATION CHECKLIST (CIC) WITH RISK ASSESSMENT SUMMARY SHEET

Part 1 – Document Checklist (Individual)

Document Category	Document Provided	Verified By / Date
Proof of Identity (POI) – Passport / National ID / Driver's Licence	☐ Yes ☐ No Document type: _____	_____
Proof of Address (POA) – Utility Bill (<6 months)	☐ Yes ☐ No	_____
Source of Wealth (SOW) – Payroll / Brokerage Statement / Other	☐ Yes ☐ No Type: _____	_____
UK / UN / BVI / OFAC / Sanctions Screening Checklist (Annex C) completed and signed	☐ Yes ☐ No	_____
CIF completed and signed by client	☐ Yes ☐ No	_____
Portfolio Analyst / Interactive Brokers account profile on file	☐ Yes ☐ No	_____

Part 2 – Document Checklist (Corporate)

Document Category	Document Provided	Verified By / Date
Proof of Existence (POE) – Articles of Incorporation / Business Licence / Certificate of Good Standing	☐ Yes ☐ No Documents: _____	_____
Beneficial Owners Certification	☐ Yes ☐ No	_____
Shareholders Register / Share Certificates	☐ Yes ☐ No	_____
Director / Signatory POI (President, Secretary, all signators)	☐ Yes ☐ No Names: _____	_____
Director / Signatory POA (President, Secretary, all signators)	☐ Yes ☐ No	_____
UBO POI (all UBOs >10%)	☐ Yes ☐ No UBO names: _____	_____
UBO POA (all UBOs >10%)	☐ Yes ☐ No	_____
Proof of Address (POA) – Entity Utility Bill (<6 months)	☐ Yes ☐ No	_____
Source of Wealth (SOW) – Financial Statements / Bank Statement / Other	☐ Yes ☐ No Type: _____	_____
Sanctions Screening Checklist (Annex C) completed and signed	☐ Yes ☐ No	_____
CIF completed and signed	☐ Yes ☐ No	_____
Portfolio Analyst / IB account profile on file	☐ Yes ☐ No	_____

Part 3 – Risk Assessment Summary Sheet

This section maps the client's data (from the Portfolio Analyst and supporting documents) to AGM's risk scoring criteria, providing a clear and auditable derivation of the overall risk rating.

Risk Dimension	Data Source & Key Factors Assessed	Score (1-3)	Rationale
Customer Risk	Portfolio Analyst: account type, investment objectives, net worth, annual income. Supporting docs: POI, SOW, PEP declaration, beneficial ownership structure.	—	—
Geographic Risk	Portfolio Analyst: country of residence, nationality. Sanctions screening results. FATF / OFAC / FSC list checks.	—	—
Product / Service Risk	Portfolio Analyst: account type (self-directed or discretionary), product type, use of margin.	—	—
Channel / Delivery Risk	Onboarding method (face-to-face, telephone, online). Third-party CIP reliance (if any). CIF submission channel.	—	—
TOTAL SCORE	Sum of all dimension scores	—	LOW (4-6) / MEDIUM (7-9) / HIGH (10-12)

Overall Risk Rating	☐ LOW ☐ MEDIUM ☐ HIGH
EDD Required?	☐ Yes – Reason: _____ ☐ No
SDD Applied?	☐ Yes – All criteria confirmed ☐ No
Review Frequency	☐ Annual ☐ Quarterly ☐ Monthly
AML Compliance Officer	Name: _____ Date: _____
Next Review Date	_____

ANNEX C – SANCTIONS SCREENING CHECKLIST

This checklist must be completed by the AML Compliance Officer at account opening, at each list update event, and as part of the periodic monitoring cycle. A completed, signed original must be retained in every client file.

Screening Step	YES	NO	Comments / Action
Client name screened against OFSI UK Consolidated List	☐	☐	
Client name screened against FCDO UK Sanctions List	☐	☐	
Client name screened against OFAC SDN List	☐	☐	
Client name screened against UN Security Council Consolidated List	☐	☐	
Client name screened against FIA BVI Sanctions List	☐	☐	

Client name screened against FSC BVI Sanctions List	☐	☐	
All beneficial owners (>10%) screened against all lists above	☐	☐	UBO names: _____
All directors and authorized signatories screened against all lists above	☐	☐	Names: _____
Source of funds / source of wealth reviewed for sanctioned country links	☐	☐	
Corporate ownership structure reviewed for designated person control (>50%)	☐	☐	
Client country of origin/residence reviewed against embargoed countries	☐	☐	
Connection of each individual screened to their role in the entity documented	☐	☐	
Any potential match identified? (If YES, complete Match Assessment below)	☐	☐	
Clearing firm notified of any flags	☐	☐	
Results documented and filed by AMLCO	☐	☐	

Match Assessment (complete only if potential match identified)

Field	Details
Name of potential match	
List(s) on which match appeared	
Basis for True/False Positive determination	
Supporting evidence reviewed (aliases, DOB, nationality, passport no.)	
Outcome: True Positive / False Positive	
Action taken (CRF filed / SAR filed / Account frozen / Cleared)	
Date of determination	
CEO notified (True Positive cases)	☐ Yes ☐ N/A

Type of Screening	☐ Onboarding ☐ List update ☐ Annual ☐ Quarterly ☐ Trigger event
Client / Account Name	
Account / Reference No.	
Screened by (AML Compliance Officer)	Name: _____
Date of Screening	
Signature	

APPROVAL AND ACKNOWLEDGMENT

Role	Name & Signature	Date
AML Compliance Officer		
Chief Executive Officer		
Chief Operations Officer		
Board of Directors (Chair)
